

Continuous glucose monitoring is transforming diabetes management¹

Deliver more value to patients and payers with the FreeStyle Libre 2 system^{*2,*3,4,5} The #1 continuous glucose monitor prescribed in the US⁺

1127

Medicare coverage is available for the FreeStyle Libre 2 system if the FreeStyle Libre 2 reader is used to review glucose data on some days every month. Medicare and other third party payor criteria apply. Abbott provides this information as a courtesy, it is subject to change and interpretation. The customer is ultimately responsible for determining the appropriate codes, coverage, and payment policies for individual patients. Abbott does not guarantee third party coverage or payment for our products or reimburse customers for claims that are denied by third party payors.

*Data from this study was collected with the outside US version of the FreeStyle Libre 14 day system. FreeStyle Libre 2 has the same features as FreeStyle Libre 14 day system with optional real-time glucose alarms. Therefore the study data is applicable to both products. †Data based on the number of patients assigned to each manufacturer based on last filled prescription in US Retail Pharmacy and DME.

The FreeStyle Libre 2 system helps patients and providers make informed diabetes management decisions with unsurpassed 14 day accuracy¹

PAINLESS: Check glucose with a painless⁺² scan instead of fingersticks* **EASY:** Easy iCGM to apply^{\ddagger} with no in-person patients training required³ **ACTIONABLE:** Real-time alarms[§] that notify patients the minute their glucose is too low or too high

How to get started

It is important to understand billing and reimbursement, and where to send claims for continuous glucose monitoring across your contracted payers before you begin.

Some common reimbursement HCPCS codes for continuous glucose monitoring are provided below, more detailed information can be found on the Medicare Coverage Database.

- Local Coverage Determination, Glucose Monitors (L33822)⁴
- Glucose Monitor, Policy Article (A52464)⁵

Healthcare Common Procedure Coding System (HCPCS) for Continuous Glucose Monitoring ^{4,6}		Ceiling ⁶	Floor ⁶
E2103	Non-adjunctive, non-implanted continuous glucose monitor or receiver	\$281.13	\$238.96
A4239	Supply allowance for non-adjunctive, non-implanted continuous glucose monitor (CGM), includes all supplies and accessories, 1 month supply = 1 unit of service	\$255.01	\$216.76

Modifiers ^{4,5}				
CG	Policy criteria applied			
KS	Glucose monitor supply for diabe Use modifier KS if the beneficiar			
KX	Requirements specified in the m Use modifier KX if the beneficiar			

Medicare coverage is available for the FreeStyle Libre 2 system if the FreeStyle Libre 2 reader is used to review glucose data on some days every month. Medicare and other third party payor criteria apply. Patients must meet Medicare eligibility coverage criteria: Local Coverage Determination, Glucose Monitors (L33822) Abbott provides this information as a courtesy, it is subject to change and interpretation. Important Safety Information

Failure to use FreeStyle Libre 2 system as instructed in labeling may result in missing a severe low or high glucose event and/or making a treatment decision, resulting in injury. If glucose alarms and readings do not match symptoms or expectations, use a fingerstick value from a blood glucose meter for treatment decisions. Seek medical attention when appropriate or contact Abbott at 855-632-8658 or https://www.FreeStyle.abbott/us-en/safety-information.html for safety info.
